AGITATION FOR BAND CONCERTS

Renewal of Effort to Arrange For
Summer Evening Events Probably
Means Its Success.

WOULD BE GREAT HELP TO CITY

One Business Man Offers Five Dol-
lars and More if Needed to
Start the Fund.

The agitation for holding band
concerts is being started again and
it appears that something will result
this time. Many merchants have
discussed the proposition lately and
all are in favor of holding at least
weekly concerts. All that is needed
is for someone to take the initiative.

Earl H. Payne, president of the
Peoples National bank, said today
that he would give five dollars to-
ward a fund to hold band concerts
and that he would give a dollar for
every one over five that was given,
providing the money is needed. With
a few more men who would make an
offer of this sort, it seems there
would be no doubt but that the ven-
ture would be a success.

Recently when the proposition of
building a band stand that would
last for years to come was discussed,
the manager of the band was asked
concerning the price of contracts. He
replied then that if the Retail Mer-
chants association would sign a con-
tract to pay for a certain number of
concerts that they could be had for
twelve dollars. Otherwise they
would be fifteen dollars a concert.

The general opinion among mer-
chants is that the band is very fair
in making such an offer. It is felt
that the concerts should be worth
this much at least. It is needless to
point out the value of concerts. The
merchants are almost a unit on the
subject.

As one business man declared to-
day, Rushville has been going back-
ward instead of forward when it dis-
continued "Big Wednesdays." These
bargain days were a great adver-
tisement for the city not only in
Rush county, but in all adjoining
counties. They gave Rushville the
reputation of being a real live place.
In order to keep up that reputation,
it is maintained, the business men
should do something to entertain the
people when they come here.

It is very probable that some ef-
fort will be made in the next few
days to solicit the business men for
contributions for the concerts.

The Ladies Aid Society of the
New Salem M. E. church will give a
festival on the school house lawn
Saturday evening.

Col. Jim Worth Promises To Cause The Lady From Muncie To Fade Into Obscurity

tion he has here. Bank roll, clothes,

more of the same thing. In addition
to outstripping Mrs. Anthony of

CIRCUS COMING AUGUST 15

Wallace-Hagenbeck Shows Will be
Here That Date.

The Wallace-Hagenbeck circus will
show in this city August 15, accord-
ing to word received at the L. E. W.
station. The show will come here
from Muncie over the L. E. & W. rail-
way. The bill car is looked for now
any day. It has been three years
since a large circus visited this city
and the last one was Wallace Hagen-
beck. The Wallace-Hagenbeck
shows is well known to the people
here and it is considered an Indiana
circus for the reason that its winter
quarters are at Peru. The last time
the show was here the Shriners en-
tertained the Connersville members
and the evening performance was
featured by the local lodge.

NINTH INFANTRY SPENT DAY HERE

Soldiers Arrived Early This Morn-
ing on Return to Ft. Thomas
From Indianapolis.

CONNERSVILLE NEXT STOP

The Ninth Infantry, on the return
hike to Fort Thomas, Ky., from Fort
Harrison arrived here at ten o'clock
this morning from Morristown. The
five hundred and twenty men are
camped on the lot just west of the L.
E. & W. station, the same place they
camped on the trip through here in
May from Fort Thomas.

The soldiers left Morristown at
four o'clock this morning, taking ad-
vantage of the cool air. After ar-
riving here it did not take long to
pitch their tents and the work was
carried on much on the order of a
large circus, every man having his
part to do. The soldiers received a
large amount of mail this morning
at the local office, one pouch being
filled. Postmaster Hunt had made
arrangement for the necessary sup-
plies and everything was on the
grounds when the troops arrived. The
soldiers have been at Fort Harrison
for target practice the last six weeks.
The soldiers attracted more atten-
tion on their first trip through here
than they did today although a large
crowd was out to see them pitch
camp.

The soldiers will leave here in
the morning at four o'clock for Con-
nersville where they will camp tomor-
row night. From Connersville they
will go to Brookville. On this trip
the soldiers will not hit Laurel. The
infantry wished to avoid Laurel on
account of the large number of hills.

lars who claims every city as his
home, has started an invasion of the
east which promises to make that of
the Lady From Muncie, Indiana, fade
into obscurity.

Alighting in Indianapolis for a
week's stay with twelve suits of
clothes, two dozen silk shirts, three
dozen pair of ilk socks at \$5 per
thirty neckties and the remainder of
his wardrobe in proportion, Colonel
"Jim" more than startled the resi-
dents of the "auto center."

Residents of this city remember
Colonel "Jim" best, perhaps by his
extreme dress. For years he spent
the summers at the Antlers hotel
here and rarely appeared twice in

ALLEGED DEAL IS REHASHED

Letters Concerning Secret Confer-
ence of Brewers in Chicago In-
troduced at Inquiry.

WATSON'S DENIAL RECALLED

Story of Attempt to Block Roose-
velt's Attempt to Nominate Taft
is Brought Out.

The alleged effort of James E.
Watson of this city to get the aid of
the brewers in his campaign for gov-
ernor of Indiana in 1908, when he
was running on a county local op-
tion platform and the attempt to
block Theodore Roosevelt in his de-
sire to nominate W. H. Taft for
president on the Republican ticket in
1908 were most important of the
points brought out by the lobby
probers of the United States Senate
in Washington yesterday.

The brewery scandal perpetrated
by Mulhall, the self-styled lobbyist,
has already been published in Indi-
ana newspapers, it has become a
matter of general knowledge to the
public when the letters of Mulhall
were first published in the New York
and Chicago newspapers.

It will be recalled that at the time
Mr. Watson branded the whole story
of his attempt to win over the brew-
ers in his campaign as a malicious
lie, even worse than the early ones
Mulhall concocted. He pointed to the
absurdity of such action on his part
—the holding of a secret conference
with brewers, who were admittedly his
bitterest enemies in the campaign
and who did all within their power
to defeat him and thus have in pow-
er a party which would not pass a
law that would injure their interests.

Mulhall has posed as a politician,
but capable and well informed cor-
respondents at Washington write
that some of his comments upon the
big politics played in 1908, are ama-
teurish and amusing, especially when
he discussed the issues involved in
the conflict for the Republican nomi-
nation that year.

One thing, however, he seems to
have struck right, and that is that
Colonel Roosevelt, then President,
had a friendly feeling for some of the
large industrial trusts at that time.

According to the correspondence
put into the lobby record today, Mul-
hall imagined that he was playing a
most conspicuous part in the 1908
campaign, not only nationally, but in
a number of individual states.

Some of the Mulhall letters in-
troduced today dealt with former
President Roosevelt's indorsement of
the candidacy of Mr. Taft, then Sec-
retary of War. In a letter to
Schwedman, Secretary of the man-
ufacturers, in April, 1908, Mulhall
quoted the late Vice-President Sher-
man as saying that the fight then
raging on Speaker Cannon was a
"dirty deal by the White House
against the speaker."

"Watson states," wrote Mulhall,
"that the President (Roosevelt) is
moving heaven and earth to nominate
Taft and that he is willing to sacri-
fice the Sherman law and every law
to please the trusts and please Wall
Street, so that he can get their sup-
port for his candidate."

Mulhall also wrote of attending a
meeting at Mr. Foraker's house,
composed of Senators "who will op-
pose the President and his policies
at the Chicago convention." He added
that he was told to work against
Maryland delegates being instructed
for Taft.

"The opposition to the President,"
Mulhall continued, "intends to let no
legislation through that he wishes at
this session of Congress, and intends
to fight the Taft forces to a finish."

HOLY GRAILS MAY TAKE PART

Local Members of Order Plan to
Enter Relay Race to be Staged
Week From Tomorrow.

EIGHT ALREADY ENTERED

Two Members of Each Team Would
Run a Mile, The Total Distance
to be Four Miles.

An effort is being made among the
Knights of the Holy Grail here to
organize a relay team to take part in
the field day exercises of the Holy
Grail which will be held in Indian-
apolis a week from tomorrow.

Plans are being made by Dr. Perry
Edwards Powell, founder and su-
preme merlin of the order, for a huge
relay race on that date to be run into
Indianapolis from surrounding cities
by several picket teams. Following
that a double header baseball game
will be staged at one of the Indian-
apolis parks.

Anderson, Terre Haute, Franklin,
Brownsburg, Martinsville, Newcastle,
Noblesville and Elwood have signi-
fied their intention of entering the
novel contest. The simultaneous re-
lay is something new in this part of
the country and is being planned
along the lines of a famous English
contest.

Picked team from the various out-
state grails will be started on such a
schedule that the ribbons of the vari-
ous camps will reach the rendezvous
simultaneously. Every runner will
carry the colors for a mile. The rep-
resentatives of the various teams
will be taken to their starting points
in automobiles and when they have
completed their lap, will be picked up
and brought onto Indianapolis.

The plan is for each set of runners
to run a mile. The race is to be
started four miles from Indianapolis
along the various roads which lead
from the respective cities where the
entrants live.

The race will end at Monument
Place and the athletes will present
messages to Governor Ralston from
the mayor of their cities. It is ex-
pected that more than 200 long-dis-
tance men will participate.

CONNERSVILLE MAN BRUTALLY BEATEN

Thomas Allison Picked up Along the
I. & C. Right-of-Way Near
Gwynneville.

SUPPOSED MOTIVE ROBBERY

Thomas Allison, who resides north
of town, near Roberts park, was
brought to this city yesterday
morning on the 8:48 I. & C. car from
Gwynneville, where he was found in
a serious condition following a sup-
posed assault, says the Connersville
Examiner. Mr. Allison was very
weak when he reached this city and
was unable to walk. He was taken
to his home, where his condition is
slightly improved.

It is impossible to learn the man-
ner in which he received his injuries,
as Mr. Allison is as yet unable to
talk, but it is supposed that he was
held up and relieved of his money.
The men who placed Mr. Allison on
the car at Gwynneville were unable to
explain the cause of his injuries.

MISFORTUNE TRAILS HIM

Glenwood Man is Kicked by Horse
And Bitten by Dog.

James Norris of Glenwood is a
target for the shafts of ill fortune
of late, he believes, says the Con-
nersville News. Some days ago one
of his horses, with sardonic pre-
cision, kicked his left arm so as to
make it hurt the worst possible
without doing permanent injury. Yes-
terday his old, old bird dog unwisely
got into a fight with a swarm of ac-
tive puppies. In trying to save the
aged hunter from harm Mr. Norris
had his arm, still lame from the kick,
bitten badly by one of the puppies.

HAS RECORD WHEAT YEILD FOR COUNTY

Dora Gwinnup Threshes Average of
47½ Bushels Off a Feld of 20

Acres.

PLOWS HIS CORN AT NIGHT

Dora Gwinnup, a tenant on the
farm of Mrs. Mary J. Conner, a
short distance this side of Anderson-
ville, has realized a yield of forty-
seven and a half bushels of wheat to
the acre off a field of twenty acres.
This will probably stand as the high
yield in Rush county this year. So
far there have been no yields above
thirty bushels reported here.

The excellent results obtained by
Mr. Gwinnup are said to be due to
his tireless industry. He moved to
the farm last fall. In order to sow
the crop of wheat which yielded so
well, he had to drive from his home
near Arlington, a distance of twenty
miles. Further evidence of his
thriftiness is found in the fact that
during threshing, instead of employ-
ing a man to plow corn, he did that
work at night. He hung a lantern on
the horse to give him light.

MAKE SHORT WORK OF BICYCLE THIEF

Knightstown Men Have Polander in
Jail in Half Hour After
He Stole Wheel.

IS HELD TO CIRCUIT COURT

In less than a half hour after he
had sold a bicycle stolen from Omer
Foxworthy of Knightstown yester-
day morning about eleven o'clock,
Andrew Reichardt, a Poiauder
caught. He was arraigned before
Squire Davis in Knightstown yester-
day afternoon and bound over to the
Henry circuit court under a bond of
two hundred dollars. The bicycle he
stole was valued at eight dollars.

The bicycle was stolen from an
alley in Knightstown where Fox-
worthy had left it while at work. He
soon discovered the theft and traced
Reichardt north of Knightstown, rid-
ing in an automobile with W. C.
Gourley. The foreigner sold the
wheel to Wade and Ben Trishman,
sons of John Trishman, for three
dollars.

At the farmhouse of James LeMay,
just north of Knightstown, the thief
left the road and was in hiding in a
patch of weeds, when apprehended
by John Trishman and Omer Fox-
worthy, owner of the wheel. In less
than half an hour after he sold the
wheel the thief was caught and being
brought back to town, and before
noon he was placed behind the bars.

POPULAR PARTY IS COMING BACK

Kellogg-Haines Singing Party, Which
Was Just a Big Hit at Last
Chautauqua, to Appear Again.

WILL BE HERE AUGUST 7 AND 8

Their Solo Work is Excellent But
Their Claim to Recognition is
in Their Quartet Work.

In the Kellogg-Haines Singing
Party there is an attraction which
has no superior in its particular line
of work in the Lyceum today. There
are five in the party, three gentlemen
and two ladies. Much of their pro-
gram is given in elegant and appropri-
ate costumes. Some of these
numbers are the best example of hu-
mor and wit that good musical liter-
ature has to offer. Scenes are also
given in grand opera.

Every person who attended the
chautauqua last year with any regu-
larity will remember this pleasing
musical organization. The Kellogg-
Haines party was probably the most
popular group of entertainers which
ever visited the local assembly. They
had a way that was different, and it
was a way that pleased everyone
here.

It is not an uncommon thing for
the Kellogg-Haines party to make
return engagements. They have ap-
peared at the Richmond chautauqua
four straight years and have been
called back again this year. They
are said to hold the best record of
any Lyceum attraction for return en-
gagements.

The Kellogg-Haines singers will be
here Thursday and Friday, August 7
and 8. They will give the preludes
Thursday afternoon and evening and
Friday afternoon. On Friday even-

A Double Barreled Guarantee

The readers of THE DAILY
REPUBLICAN are asked to
consider the two-fold responsi-
bility behind the many prod-
ucts of nation-wide repute
advertised locally in the news-
papers and offered for sale by
the leading merchants of this
city.

First and foremost, our
readers must know that adver-
tising has arrived at such a
sound basis that it is a rare
thing nowadays that an adver-
tised article does not measure
up to the standard established
by its advertising.

Secondly, to secure the en-
dorsement of co-operation of
our local dealers, manufactur-
ers must prove beyond ques-
tion the worth of their product.

Thus we find the manufac-
turer's national reputation for-
tified by the local merchant's
home reputation.

It is quite likely, therefore,
that our confidence is easily
won and we look with favor up-
on the many necessities of life
offered for sale under such as-
suring auspices and advertised
in newspapers like THE DAILY

GRAPE INSECTS DO MUCH DAMAGE

The Purdue University Entomologist Points Out Methods to Stop Their Inroads at This Time.

SOME SPECIES MAY BE BURNED

"Of the species of insects which infest grapes," says Prof. Troop of the Entomologist department, Purdue University, "one of the most destructive to the foliage is the Rose-beetle or Rosechaffer, but fortunately, this insect does not make its appearance in large numbers only occasionally, but when it does come, it usually strips the vines of their leaves in short order. No ordinary insecticide has any effect upon them, consequently the only successful method of holding them in check is to spread sheets or blankets under the vines and jar them off, then gather them up and empty them into a dish of kerosene.

"The grape leaf-folder and the grape-berry moth, are the next most important species, the first feeding upon the leaves and the second causing wormy grapes, often destroying the whole bunch. These species are easily managed, however, as both pass the winter in the rubbish around the vines, and may be gathered up and burned.

"The grape phylloxera which is so destructive to the European vineyards does not injure our native varieties to any great extent, as they are more hardy and better able to overcome the attacks of these insects."

SHOW HOW FUNDS HAS BEEN SPENT

Officials of State Anti-Tuberculosis Society Make Appeal in Same Letter to Manufacturers.

\$6,418 RECEIVED IN 2 YEARS

Would Broaden Scope of Work by Asking Aid of More Indiana People in Future.

"Are you interested in the dollars and cents side of life?"

This query forms the basis for an appeal which is being sent to Indiana manufacturers by the Indiana Association for the Study and Prevention of Tuberculosis.

The letter has been addressed to 400 large employers of labor, and is signed by Professor Burrage and Walter D. Thurber, the president and secretary of the association.

The appeal is accompanied by a financial statement which sets forth the receipts and expenditures of the association since the organization was formed in 1911, down to the present time.

In brief the report shows that in 1911 the state association received \$4,632.13 as a result of the sale of Red Cross seals during that year. \$7,812.23 was retained by county associations for the fight in local communities, and \$1,556.93 was sent to the American Red Cross.

During last year the state society expended \$690.17 for care of patients at the Rockwood sanitarium, \$990 for office expenses, \$613.06 for traveling expenses, exhibit at State Fair and miscellaneous \$227.02, printing \$33.30, and cash returned to county organizations \$186.15.

From the seals campaign in 1912, the state association received only \$1,785.82 owing to the fact that more county organizations had been formed, and under the rule that had been established, all of these retained 75 per cent of their total sale. The total amount retained by the various local organizations was \$8,329.33. The American Red Cross received \$1,283.88.

Since the beginning of 1913 the state organization has employed an executive secretary on a salary and maintains officers in the Public Savings Building in Indianapolis, in rooms donated by the Public Savings Life Insurance Company. It has been active in assisting local societies to complete their organization, has prepared blue prints and charts for numerous tuberculosis exhibits that are being constructed in various part of the state, provides speakers on tuberculosis at many important gatherings, and is maintaining an aggressive publicity bureau.

It is for the purpose of still further broadening the scope of the work that the association is appealing to hundreds of Indiana manufacturers, pointing out the fact that tuberculosis often strikes the working class, and that in numerous instances the victim continues at his post of duty longer than he is able to do justice to his job. Not only that, but he frequently infects other employees and still further lowers the efficiency of the working force.

The letter point out that more men and women in Indiana die of tuberculosis each year than all other contagious diseases combined and that their majority is of people at an age when they should be in their prime instead of wasting away from a disease that can be prevented.

Northern Pacific Head May Be Called to the New Haven.

THE NEW HAVEN TO HAVE A NEW HEAD

Charles S. Mellen Takes Himself Out of It.

New York, July 18.—By resigning the presidency of the New York, New Haven & Hartford and its subsidiaries, Charles Sanger Mellen has eliminated himself entirely from New England railroad. The date of his retirement is left to the directors, but Mr. Mellen says it must not be later than Oct. 1.

The resignation was received by the directors at a meeting attended by all except one or two of the board. On high authority it is said that Mr. Mellen's successor has not been selected. The only name publicly mentioned has been that of Howard Elliott, president of the Northern Pacific. Many persons in the financial district believe that he will get the job. Mr. Mellen resigned the presidency of the Boston & Maine and the Maine Central roads on July 8, the day before the interstate commerce commission made public its report harshly condemning the Mellen administration for wasteful management.

The New Haven directors were in session for four hours and a half. Mr. Mellen presided. The directors as they emerged were reticent. George F. Baker said that any information must come from the New Haven offices. William Rockefeller seemed in fair health and good spirits, but would answer no questions. All the directors appeared to be in a hurry to get away. The only statement given out was a brief one announcing President Mellen's resignation. Mr. Mellen refused to talk. It was the late J. P. Morgan who placed Mr. Mellen as president of the New Haven road. He was Mr. Mellen's chief support in the board of directors, and the possible effect of Mr. Morgan's death on Mr. Mellen's fortunes was easily seen. It was two days after the death of J. P. Morgan that Mr. Mellen was arrested charged with manslaughter in relation to the Westport wreck of last October, in which nine persons were killed and forty injured. Mr. Mellen is under indictment for that and also for alleged violation of the Sherman anti-trust law in conspiring to stop the Grand Trunk extension in New England.

PROPOSES A NEW POLITICAL DEAL

"Fighting Parson" Stirring People of Mishawaka.

PROPOSES CITIZENS' TICKET

Following His Recent Pulpit Broad-sides Against City Government at Mishawaka and His Revelations Regarding Laxity of Law Enforcement There, the Rev. Edwards Now Proposes to Marshal Forces at Polls.

South Bend, Ind., July 18.—The Rev. Loren M. Edwards, who has gained the title of "Mishawaka's fighting parson" as a result of his recent sensational attacks on the lawless element of his city, has now come forward with plans to organize the good citizens of Mishawaka into an independent party for the coming municipal election. Mr. Edwards, who is pastor of the Eberhart Memorial Methodist Episcopal church, one of the largest in northern Indiana, proposes to organize the voters the same as has been done in South Bend and Fort Wayne, and is under contemplation in several other Indiana cities.

Dr. Edwards feels the sentiment is in favor of the overthrow of the present city hall crowd, and will wage a campaign for a uniting of Republicans, Progressives and Democrats under one banner, in an effort to obtain law enforcement and other administration reforms.

The minister startled Mishawaka recently when he went into the pulpit on Sunday evening to tell what he had discovered in his investigations about the saloons and gambling dens of Mishawaka during the same afternoon. His remarks caused a sensation, which grew in proportion when he went into the pulpit the following Sunday night to make another attack on officials.

The Bride—"Thank you truly, Anty Drudge. I shall follow your advice faithfully."

Woman's work is being made easier. The weekly wash, for instance. It used to be an all-day job, with the woman getting up at 5 o'clock in the morning to heat water for boiling clothes. Now, she washes with Fels-Naptha Soap in cool or lukewarm water, and takes little longer than half the time of the old way.

No boiling, no steaming suds, no hard-rubbing; and the clothes are cleaner and fresher than ever before.

Follow directions for using Fels-Naptha on the Red and Green Wrapper.

RECOGNITION OF HUERTA REGIME

Not Beyond Present Range of Possibilities.

HIGH TIME FOR SOMETHING

Washington Is Said to Be Convinced Now That It Is Necessary For Formal Consideration to Be Given the Puzzling Problem to the South of Us, and Upon Ambassador Wilson's Arrival It Will Be Thrashed Out.

Washington, July 18.—As far as the administration is concerned, it is certain that nothing will be done in the Mexican situation pending the arrival of Ambassador Wilson. According to dispatches from Vera Cruz the ambassador should be here by the latter part of next week.

That recognition of the Huerta government by the United States is not beyond the range of possibilities for the near future is now believed here. The attention given the Mexican situation by other governments and the representations of the members of the diplomatic corps in Mexico City to their respective governments have convinced Washington that it is high time some consideration were given to the problem from the United States point of view.

It is understood the other governments most interested in Mexico will be quite content with a simple declaration of policy by President Wilson. There is no disposition of the European nations to urge intervention or any specific action by the United States.

It is inevitable that one of the chief questions to be asked Ambassador Wilson upon his arrival here is his opinion of the note prepared by his colleagues in the diplomatic corps at Mexico City. He will undoubtedly be asked if he agrees with the statements made by the ministers, notably the declarations that the attitude of the United States toward the Huerta government is a contributory cause of the increasing disorders in all parts of Mexico. It is the opinion of those who know the ambassador that he will make an affirmative reply to this question.

The status of Henry Lane Wilson will be one of the interesting points of the present situation which will have to be cleared up as a result of the forthcoming conference at the White House. There exists a feeling of great uncertainty as to the likelihood of Mr. Wilson's ever returning to Mexico City as the American ambassador. This feeling is due to the fact that the administration has made no secret of the fact but that for recognition being involved, it would have relieved him and appointed a successor months ago.

The anti-American demonstrations in Mexico City are not causing any particular apprehension to the Wilson administration. They are regarded in official circles as wholly artificial and part of an attempt to force the United States into recognition of the Huerta government. The really serious phase of the situation is the almost total disappearance of law and order from most of the states in Mexico. Americans and other foreigners are being subjected to a continuous round of raids, holdups and robberies. It is this phase of the Mexican situation, the degeneration of constituted authority, which is responsible for the anxiety of the European governments and the protests of Americans for a strong policy upon the part of their government.

EXERCISED BAD JUDGMENT

This Is Coroner's Opinion of Boy Who Killed His Father.

Lafayette, Ind., July 18.—That Paul Barger, the eighteen-year-old lad who recently shot and killed his father, John C. Barger, a Monon railroad conductor, used bad judgment and acted impulsively, is the verdict of Coroner Hannell, who has concluded an exhaustive investigation of the shooting. Barger, at the time he was shot, was attacking his wife, and the boy, according to his story, killed his father to save his mother. The coroner examined twelve witnesses and found some of the testimony conflicting. He said it was up to the grand jury and prosecutor to decide whether the boy's act was justifiable. The coroner said in his opinion the shooting could easily have been avoided.

The case will not be investigated by the grand jury until September. In the meantime the youth is out on \$5,000 bond. When the case comes to trial there will be a strong fight made on both sides. General sentiment here favors the boy, but many of the elder Barger's friends say they are determined to have justice done.

Woman Caught in Auto Smash. Greenwich, Conn., July 18.—In an automobile collision between a touring car owned by Edon Huntington Hooker, National Progressive treasurer, and a touring car owned by George H. Curtis of New York, on the Boston post-road here, Mrs. Curtis received injuries which it is believed will result in her death.

News from Hayti is to the effect that the revolutionists are very active and the regime of President Orestes will soon be overthrown.

Keep the Youth at Home.

The youth of America have been given higher ambitions and have been inspired to greater effort by the wonderful achievements of the country's successful men. Each ambitious youth considers himself a candidate for place in this country's halls of fame.

This is the quality that will make the United States great in the future as in the past; therefore, those sections, those states, those counties and those communities that encourage and foster the worthy ambitions of their young people by giving them opportunities for great accomplishment will be the communities that occupy the largest places in the country's future.

Only great men and great women can make a community great and only opportunity can afford occasion to develop the latent powers of greatness. The community, therefore, that aspires to a worthy place in coming years must recognize the claims of its young people and must make vigorous efforts to keep them to itself by affording ample opportunities for developing and exercising the initiative and enterprise that are essential to progress.

Let us keep our young folks here with us. If we think this community is not good enough for them, let us make it better. We can do it by putting our heads, our hearts, our hands and our money together. Let us who are in business take our boys in with us. Let us make places for them here among us. It is all right for them to go away to school, to college; but after they choose their life work, they can make as great a success here as anywhere else, if we only set ourselves about bringing our community up to its proper place in the world.

Before very long every ocean steamship may carry on board at all times a trained newspaper man to report for newspapers in Europe and the United States news incidents on voyages, interviews with passengers, etc., vouched for as being in accurate form and in the most approved newspaper style.

The plan is one which a man of long newspaper experience in New York and others of the big cities of the United States, Willis C. Pratt, has been working out for some years, and he predicts now that he will have his arrangements completed with the various ocean steamship companies so that his system will be in working order for the big fall ocean traffic.

He says he has unlimited financial backing behind him in the Ocean News association, an English corporation, organized especially to finance and conduct his system. Mr. Pratt will be the general manager of this company, which will have its chief offices in New York and London, he working between those two cities.

Mr. Wilson can't expect to make his mark on the history of his coun-

try until he learns to go around the golf course in less than 95.

The Commoner is coming out only once a month now. Perhaps Mr. Bryan does not enjoy getting up a column article about the weekly meeting of the county committee as well as formerly.

POPULAR PARTY IS COMING BACK

Continued from Page 1.

ing they will give a full concert, and it is in this that are very popular here.

The chief claim that is made for this company is that they present entertaining concerts of such solid character and fresh wholesome power that it is sure to captivate the musical critic of the severest type. As some one has truly said: "They have discovered just what most audiences want in the way of musical entertainments—some real good work in music and then some of the light and catchy with a big allowance for humor and melodious rhythm."

Their solo work is excellent, but their claim to recognition is in their quartet work. It is doubtful if any other mixed quartet in American can approach them in that sinking of individuality and perfect blending of voices that comprise ideal quartet work. It is heard in the singing of the foremost male quartets, but it is unknown in mixed quartets.

A few comments from the metropolitan press will serve to show the reputation which this organization has:

Detroit Free Press. The Kellogg-Haines Singing Party appeared at the Masonic Temple last evening. They gave a very pleasing entertainment singing selections ranging from light comedy to grand opera. The individual members have splendid voices, well trained and quite adequate to anything they attempt. The scenes from "Martha" was well presented and well sung, and the light touches of comedy were never overdone.

The St. Louis Post Dispatch. The program of the second Symphony Concert yesterday, proved unusually attractive. After the appearance of Miss Grace Van Studdiford, the Kellogg-Haines quartette made its debut with that capital waltz song, "Blue Danube." They made a decided hit with the audience, and their rendition of the "Sextette from Lucia" created unbounded enthusiasm.

The Lincoln, Nebraska, Journal. The audience which packed the "Olivier Opera House" last night was delighted with the concert given by the Kellogg-Haines Singing Party. As individual artists and in their ensemble work they rank very high rank.

Wheeling Intelligencer: The Kellogg-Haines Singing Party who appeared here last evening gave one of the best concerts that has ever been heard in this city. The program of musical selections from the opening to the closing number was first class in every respect and the singers were obliged to respond to many encores. The concluding feature, scenes from the opera "Il Trovatore" was probably the most pleasing part of the program.

LIVE TOGETHER FOR FIFTY YEARS

Dr. and Mrs. William Arnold of Colorado Springs, Formerly of Rush County, Commemorate Event.

MOTHER UNABLE TO ATTEND

Love Their Friends Feel For Aged Couples is Expressed in Many Beautiful Gifts Received.

The Colorado Springs Gazette of Colorado Springs, Colo., has a very interesting story of the recent celebration of the golden wedding anniversary of Dr. and Mrs. William W. Arnold, formerly of this county, together with an excellent picture of the aged couple taken the day of the celebration and individual pictures of them taken fifty years ago. The Gazette says in part:

Dr. and Mrs. William W. Arnold, who have completed a half century of happy married life, invited a number of their friends to their house at 504 North Nevada avenue last night to commemorate the event, and congratulations and best wishes for many more years together were heaped upon them.

At 7 o'clock the bride and bridegroom came down the stairs and were met by their granddaughter, Miss Berthe Arnold, who went with them to the bower in the parlor, where they were met by the Rev. Samuel Garvin of the First Presbyterian church. A ceremony was said, not the one that was used fifty years ago, but a variation suited to the needs of the occasion. After the ceremony Miss Berthe Arnold sang a song written by Miss Anna Briggs and Mrs. W. W. Williamson, in honor of the evening, called "Your Golden Honeymoon." Professor Prior played the wedding march from Lohengrin, and during the evening he played one of the favorite selections of the bridal pair.

Mrs. Arnold wore a beautiful gown of gray brocade satin, trimmed with lace and silver embroidery. She carried a fan of pearl gray ostrich feathers.

From 8 until 10 o'clock a general reception was held, and many friends called to express their congratulations. Dr. and Mrs. Arnold, with Mrs. Campbell and Miss Campbell, received the guests. The house was beautifully decorated throughout, the color scheme being yellow and white. Roses, Shasta daisies, nasturtiums, chrysanthemums and all kinds of summer flowers, with a provision of baby's breath, were artistically arranged in all the rooms. The dining room was especially beautiful. Streamers of golden tulle, caught together with smilax, hung from the chandelier to the corners of the table, which was lighted with golden shaded candles. A centerpiece of chrysanthemums, the gift of the Pikes Peak Floral company, added to the beautiful effect of the table, and mantelpieces and buffets were banked with flowers.

The love their friends feel for Dr. and Mrs. Arnold was expressed in the gift that were sent them in honor of the occasion. Dr. Garvin, in behalf of the guests of last night, presented a purse containing \$200 in gold, and in addition there were a number of other gifts from friends here and elsewhere. A photograph of Dr. Arnold's mother, ninety years old, who was unable to come from her home in Indiana, was one of the interesting souvenirs. Flowers in abundance were sent from the Pikes Peak and William Clark greenhouses, as well as many private gardens, and telegrams and letters carried congratulations from friends in other cities.

Dr. Arnold and Miss Mary Evelina Shaw were married in Hopewell, Jackson county, Indiana, July 14, 1863. In July, 1886, they made a visit here, and liked it so well that in October of that year they moved here. During this 27 years residence they have been prominent in all the activities of the city, and they have hosts of friends here among men, women and children. Congratulations are always due two people who

have lived together for a half century, but it is not often that so much love goes with the congratulations as Dr. and Mrs. Arnold have won from their friends.

DUNREITH BOY IS THROWN OFF BIKE

Clarence Hall Has Narrow Escape When he Collides With Heavy Automobile.

MACHINE RUNNING SLOWLY

Clarence Hall, fifteen years old, of near Dunreith, had a narrow escape from serious injury while enroute home on his bicycle, Wednesday, when he collided with an automobile, at Smith's mill, owned by C. F. Hollman, of Minneapolis, who with his wife was returning on his way home from New York. The bicyclist was running at a rapid rate of speed, while the auto was running at a slow pace. Just at the point where the accident occurred the auto was passing a big two horse wagon. Young Hall came up behind the wagon and with his cap pulled down over his eyes failed to see the approaching auto and crashed into the front end of the machine. He was thrown from his bicycle heavily to the ground, receiving a deep ugly cut on his left leg. He was picked up by Mr. Hollman and taken to Dr. Holloway's office, where the inquiry was properly attended to by Dr. J. S. Holloway. It required several stitches to close up the gaping wound in his leg. Mr. Hollman paid the expense of the operation.

WILL BE 'TEMPERAMENTAL'

That's The Way Weather For Tomorrow is Described.

The weather tomorrow, the Indiana prognosticator says, will be "temperamental," whatever that means, but still fair and cool. It was supposed to be cooler today, but there was only two degrees difference here in the maximum temperature of yesterday and today. The high mark of today was ninety-three and it was still plenty warm, although there was a fresh breeze that helped some. The weather man ordered rain yesterday, but none fell in Indiana.

HUSBAND CAN'T LOCATE HIS WIFE

Thomas Jones of Connersville Returns to Knightstown But Searches Without Success.

VERNON MAY BE ARRESTED

Thomas Jones returned to Knightstown this morning to renew the search for his missing wife, but was unable to find any trace of her, says the Connersville Examiner. The letter which he left in the postoffice yesterday for her had been undelivered and he was unable to find any one who could furnish the least clue to her present whereabouts.

Mr. Jones returned home this afternoon and it is understood that Vernon may be arrested again and made to tell what he knows of the woman's present location and his reasons for urging her to leave with him. Vernon is now in Hamilton.

the same outfit. In fact, he admits that clothes are his hobby. He loves to prance into a haberdasher's shop and tell them to trot out the most expensive duds they've got in the place and then say:

"I'll take a dozen of these—and two dozen of those, etc." and pay for them from a wad as big as a roll of carpet. Colonel "Jim" feels broke if he has less than a thousand or so stowed away in his pockets.

As a fitting climax to his stay in Colorado Springs last year, Colonel "Jim" appeared on the streets on his last night in the city attired in the flashiest flannel suit obtainable, tie and socks of screaming shade and white buck shoes with miniature electric light bulbs decorating the toes and instep.

LOBBYING IS DEAD AS A PROFESSION

President Says It Will Soon Be Classed With Dodo.

INQUIRY TO BE PUSHED.

Officials Aroused by Charges Made by Colonel Martin M. Mulhall Against National Association of Manufacturers—Lobby Out of Business In Capitol Is General Opinion.

The lobby is out of business so far as national legislation is concerned. It has ceased to embarrass the administration. When the present investigation ends lobbying as a profession will be classed with the dodo and other things extinct.

That is the view taken by President Wilson. When he saw the newspaper correspondents following the recent expose of the lobby in Washington fostered by the National Association of Manufacturers, the president wore an expression that was distinctly one of pleasure at the revelations. His first remark indicated that he was greatly pleased with the latest lobby developments, although he did not care to discuss them in detail.

Discusses the Expose.

The president made it very plain that he is behind the move for a full and complete inquiry into every phase of the question. He believes that the charges of Judge Lovett and others that an attempt has been made to hold up Wall street's interests on behalf of certain lawyers, that the National Association of Manufacturers crushed or made congressman at the whim of its officials and that subterranean methods have been used in creating terrorism in national legislative halls should all be thoroughly investigated. And the president himself is the authority for the statement that the public must know the truth, no matter who may be smothered or what their political belief may be.

President Wilson briefly discussed the Mulhall charges made recently against the National Association of Manufacturers, which have since had wide circulation.

When Mr. Wilson made his first declaration that "a numerous and insidious lobby" was operating in Washington he had no idea that such charges as made by Colonel Martin Mulhall would be brought out, but he said he was in favor of investigating all charges and had no doubt the senate committee would have a free hand. The president told his callers the accusations in the Mulhall statement had been called to his attention just before their publication.

A Searching Investigation.

A searching investigation not only by the senate lobby committee, but by a select committee of the house also, promises to be the first result of the charges made by Mulhall, who has been the general field "lobbyist" for the National Association of Manufacturers.

Mulhall's allegations that representatives, senators and high officials of the government had been "reached" or "influenced" and that the "lobby" conducted its operations from a room in the capitol, paid money to employees there, took an active hand in making the committees and went out actively in the political campaigns to defeat congressmen who opposed legislation the "lobby" wanted have thrown congressional circles into an uproar.

BUILDING \$15,000 CATTERY.

Woman to Have Luxurious Home For Her Prize Winners.

Mrs. Clifford B. Harmon is constructing at Indian Harbor, near Greenwich, Conn., what is to be the most complete home for cats in this country. Mrs. Harmon, a noted cat fancier, is bent upon having a home de luxe for her twenty-eight cats and twenty-four kittens, many of them noted prize winners.

Before the laborers were set at work on the foundation for her new \$15,000 "cattery" Mrs. Harmon broke the ground in the presence of a large company, including Commodore Benedict and Thomas Hastings of Carrere & Hastings, the architects of the building. The "cattery" is to cover more than two acres on Commodore Benedict's property at Indian Harbor. There are to be eight rooms, with nineteen cat runs. Hot and cold water, electric light, gas for cooking, two baths, a kittens' nursery, steam heat and other improvements are deemed necessities. In addition there is to be a seven room cottage for Mrs. F. Y. Mathis, who has been associated with Mrs. Harmon for three years and who has been breeding famous cats for about ten years.

The new "cattery" will be known as the Greenwich cat kennels. Mrs. Harmon will give the cats her personal attention, and Mrs. Mathis will be in constant charge.

To Report Seismic Phenomena. NAMES HEAD OF NEW ARBITRATION BOARD

Important Post Goes to Judge Chambers.

Washington, July 18.—Judge William L. Chambers of Washington has been selected by the president to be commissioner of mediation and conciliation, under the Newlands act, and G. W. W. Hanger as his assistant. The other two members of the new board will be Judge Martin A. Knapp of the United States commerce court and Louis F. Post, assistant secretary of labor.

Immediate confirmation of the president's nominations is expected. Both houses of congress joined hands to put through promptly the Newlands bill, with the hope of averting the threatened strike of 80,000 conductors and trainmen on eastern railroads. The roads and their employees had agreed to submit their wage dispute to the new board of mediation and conciliation.

The board is a permanent institution to aid in the adjustment of disputes between railroads and their employees, and the act creating it provides elaborate machinery for carrying on the work. The commissioner and his assistant will devote all of their time to their new duties, but the other two members of the board will retain their present federal positions and act as mediators only when called upon.

Judge Chambers, chosen to head the board, was at one time chief justice of the international court at Samoa, and since 1901 has been a member of the Spanish treaty claims commission. He has had considerable experience, however, in arbitrating labor disputes. Mr. Hanger, who is to be assistant to Judge Chambers, is chief statistician of the bureau of labor statistics and acting head of the bureau since the resignation of Dr. Neill.

Unexpected Answers.

The French government, wishing to obtain definite statistics on points relating to certain Turkish provinces, sent blanks with questions to be answered to the provincial governors. The replies received from the pasha of Damascus are worth quoting:

Q.—What is the death rate in your province? A.—In Damascus it is the will of Allah that all should die. Some die young and some die old.

Q.—What is the annual number of births? A.—God alone can say. I do not know and hesitate to inquire.

Q.—Are the supplies of water sufficient and of good quality? A.—From the remotest period no one has died in Damascus of thirst.

General remarks as to the local sanitation: Man should not bother himself or his brother with questions that concern only God.

Killed by Light.

Those who have studied the strange inhabitants of the Mammoth cave in Kentucky say that the celebrated blind fish from that cavern when placed in illuminated aquaria seek out the darkest places, and it is believed that light is directly fatal to them, for they soon die if kept in a brightly lighted tank. The avoidance of light seems to be a general characteristic of the sightless creatures dwelling in the great cave. One authority to avoid the light and animalcules from the waters of the cavern hiding under a grain of sand on the stage of a microscope. It is thought that the light in these cases is in some manner perceived through the sense of touch.—Exchange.

WILL LEARN HOW TO PREVENT FIRE

Public is to Hear Much From State Fire Marshal's Office Concerning These Methods.

VALUE OF THIS WORK KNOWN

Department Works Effectively by Recognizing Standards Which Will Check Fire Waste.

The importance of educational work in the effort to reduce losses by fire is emphasized in a communication received from the National Fire Protection Association at the offices of State Fire Marshal W. E. Longley at Indianapolis. The Indiana fire marshal department is one of the newest ones established and the National Association has been rendering such assistance as possible. The National Association is seventeen years old and is credited with having inspired most of the movements throughout the country for the prevention of fires.

It is suggestion of this Association that in Indiana the fire marshal's department may work most effectively by recognizing standard under guidance of which fire waste may be checked, and by educating the people in the observance of these standards. These are the lines along which Mr. Longley has been directing the work and he is greatly encouraged by the public-spirited attitude of the Indiana newspapers. He believes that when the public realizes the grievous economic penalties which must be paid for neglecting to take every precaution against fire, there will be a popular movement of large proportions toward reducing the immense fire losses in Indiana.

One line of activity in the fire marshal's department is that of studying closely the conditions which are causing losses in Indiana that might be avoided. The question of the storage of gasoline, oils and other combustible material is being analyzed in the light of actual experience. Modern methods of fire-resistive construction is also receiving the attention of the department. The causes of fires are being carefully sought out and tabulated.

It is the intention of the department to give to the public such practical suggestions based on these investigations as will be of definite worth. Specific regulations will also be the outgrowth of the study which is being made but is not the intention of the marshal to attempt reforms until his department has thoroughly demonstrated the wisdom of proposed regulations.

WILL IRWIN ADMITS HE CONCOCTED "HIGHBROW."

Magazine Writer Tells of Achievement While Visiting Former Outlaw.

Will H. Irwin, magazine writer, is preparing to write the biography of Al J. Jennings, former Oklahoma outlaw and bank robber, released from the federal penitentiary by President Roosevelt and more recently a candidate for prosecuting attorney of Oklahoma county.

Irwin recently spent several days in Oklahoma City with Jennings. During his stay he confessed to an achievement which will give him a place in the history of etymology along with Colonel Roosevelt and other word and phrase coiners. He admitted inventing the term "highbrow."

Before "highbrow" arrived there was an aching void. "Snob" didn't quite cover it. "Academic" failed. Nothing could quite express the delicate shade of meaning till "highbrow" came.

"Highbrow" first peeked its way into the consciousness of the reading public one bright morning from a column of the New York Sun. "Highbrow" referred to a meeting the night before of the Society For the Betterment of Drama. Irwin was a reporter on the Sun, and persistently he forced "highbrow" to the front time after time until others' vocabularies began to absorb the term. Then "highbrow" was made. Irwin says the dictionary makers will recognize it in their next editions.

**MAY YET REVEAL THE GRAFTERS HIGHER UP****More Evidence Comes Out in New York Police Case.**

New York, July 18.—Charles B. Plitt, jr., who was a sort of a confidential agent for Lieutenant Becker while the commander of the strong arm squad was at the height of his career, has made a statement to District Attorney Whitman, in which he said that he had seen Lieutenant Becker hand money directly to two men who at the time were in important posts at police headquarters. One of the men accused still is connected with the department, the other is not. Plitt, in default of \$1,000 bond, was held by Magistrate Appleton in the Tombs July 10 await the action of the grand jury on a charge of perjury. Plitt gave the names of several persons who, he said, could corroborate him in his accusations against the headquarters men.

ASKED THE N.A.M. TO PAY HIS BILLS**Jersey Candidate Fell Back on Manufacturers.****HE SAID IT WAS UP TO THEM**

Further Interesting Details Brought Out in the Perusal of Documents Turned Over to the Lobby Investigating Committee by Colonel Mulhall, Who, Incidentally, Introduces Matter Relating to Watson's Race.

Washington, July 18.—Apparently the hearing in the lobby investigation has helped the candidacy of Archibald Hart, who is running for congress in the Sixth New Jersey district, where a by-election will be held next Tuesday.

The senate committee advanced more than two years in the chronological order of the Mulhall correspondence in order to dig up evidence of the intimate relation which had existed in the 1910 campaign between the National Association of Manufacturers and S. Wood McClave, then as now the Republican candidate for congress in the Sixth New Jersey district. Senator Reed said he thought that in presenting the McClave correspondence he would give the N. A. M. something they could not deny.

Subsequent to the campaign of 1910, when Senator Hughes, then a candidate for the house, defeated Mr. McClave, there were a few bills left over for campaign expenses. Accompanying these bills were letters from the office of Mr. McClave, in which the writer told Mr. Mulhall that his funds were depleted by the expenses of the election, and he suggested that as these bills had been incurred at the suggestion of Colonel Mulhall, the N. A. M. should meet them for him. Colonel Mulhall was examined in regard to the expenditures in McClave's district.

He said: "The National Association of Manufacturers spent \$3,900 of its money in the effort to elect Mr. McClave. There was also spent \$2,000 by a Mr. Barber of New York, a manufacturer who had silk mill interests in Paterson. I do not think McClave spent a penny of his own money."

This matter having been aired, the regular order of the examination of Colonel Mulhall was resumed. The day's examination of Mulhall's correspondence included a number of elaborate reviews of political conditions during the season immediately preceding the Chicago convention of 1908, which nominated Mr. Taft. There was a tendency throughout this correspondence to show that Colonel Mulhall's most frequent correspondents among the officials of the N. A. M. were favorable to the selection of Speaker Cannon as against Secretary of War Taft. They also disclosed that long before the name of James S. Sherman of Utah was sprung in the convention as the nominee for vice president, the choice of Mr. Sherman as the N. A. M. candidate was very definite. Representative James E. Watson of Indiana, by this time having been nominated for the governorship of Indiana, was opposed to the nomination of Secretary Taft. In this connection the colonel charged that, while Watson was running for governor on a county option platform, he and his managers were in secret negotiations with the brewers and that several meetings were held for the purpose of getting the brewers in line. Watson saying that he was entitled to their support because of the services he had rendered to the brewing interests as a member of congress. According to Colonel Mulhall, the late Vice President Sherman and former Senator James A. Hemenway were go-betweens in trying to get the brewers in sympathy with Watson's candidacy. It was Colonel Mulhall who picked Sherman for the Taft running mate in 1908, if a letter which he wrote on June 1, 1908, may be accepted at face value. In this letter Colonel Mulhall predicts Sherman's selection.

IMPEACHMENT PROCEEDINGS

This May Be Next Step in the Fight on Governor Sulzer.

Albany, N. Y., July 18.—Testimony taken before the Frawley legislative investigating committee is looked upon in political circles here as the commencement of the foundation upon which impeachment proceedings against Governor William Sulzer shall lie later. Three senators and three assemblymen were called to the stand with a view to showing that Governor Sulzer had either signed or vetoed appropriation or bond bills desired by these legislators according to their position in favor of or in opposition to the governor's direct primary bill abolishing party state conventions. The probe will be carried further next week. Subpoenas have been issued for several private citizens whose testimony is expected to corroborate that of the legislative witnesses.

Two Witnesses Disappear.

Anderson, Ind., July 18.—The Madison county grand jury has taken a recess in the investigation of the killing at Ingalls of Albert Hawkins of this city. Two witnesses who are supposed to have important testimony have disappeared from Ingalls, and one is said to have left Indiana.

FANS WILL SEE REAL BALL GAME

Cincinnati Y. M. I. Will be Hard Aggregation For Rushville to Defeat—Lineup Given.

TWO GAMES WITH NEWCASTLE

Arcadians Will go There on Special August 10 and Hoosiers Come Here August 24.

The Arcadians face probably the fastest team that has yet played here this year in the Y. M. I. team of Cincinnati. The Y. M. I. bunch will make Rushville go some to win, and are coming determined to win. The Y. M. I. team won the Spinney league championship last year and with Conway in the box Sunday, Rushville will find the going hard. If the team wins from this aggregation it is fast enough for all comers.

The Rushville team will use the usual lineup with Avery or Jones in the box. The team has been going good in the last few games, the only weak place being at third base. The Y. M. I. team was defeated last Sunday at Muncie 4 to 1. Six errors behind Conway being largely responsible.

The Institute team will line up as follows: Mathis, left field; Swain, center field; Brackman, shortstop; Kifel, catch; Zerlage, first; Gano, third; Yocket, second; Kraener, right field, and Conway, pitch.

Arrangements were completed today for a series of games with the Newcastle team. Rushville will go there for the first game August 10, and Newcastle will play here August 24. August 10 is the last day of the chautauqua and the management thought it best to play away from home on that date. A special train will be run to Newcastle and it is expected that 300 fans will make the trip. The Arcadians have hopes of beating Romine this year and will go there to win.

On account of the increased attendance at the South Main street grounds the management is planning the erection of about fifty feet more to the grand stand.

The team this year has played only the best teams and the fans have been given a high class article of ball. The increased patronage shows that the fans are with the team and the addition to the grand stand will be made. A week from Sunday the fast Indianapolis Specials will be the attraction here. The Arcadians are after the Specials for the 11 to 1 defeat of a few weeks ago and expect to turn the tables of the Indianapolis team.

LEAGUE UMPIRE IN CITY

Harry T. Arnold of Central is Here Visiting Friends.

Harry T. Arnold, of Chicago, an umpire in the Central League, arrived here today from Cincinnati for a few days' visit with friends. Arnold recently joined the Central League coming from the Western Canada League. He umpired last Monday at Evansville and has been sick ever since on account of the extreme hot weather. He was compelled to stop over in Cincinnati while on his way to umpire at Springfield, Ohio. Arnold will remain here over Sunday and expects to report for duty at Fort Wayne.

TO START SOON ON 35TH SEASON

"Mother" Jessop of Connersville, Known in every State in Union, Will be at Local Fair.

HER "FAMILY" GATHERING IN

Mrs. Caroline Jessop, the lady confectioner, known to thousands over the United States as "Mother Jessop," is making preparations to leave on her annual tour of the fairs in the north and south, says the Connersville Examiner. Her assistants are arriving, and the company will leave in a few days for Middletown, where the first fair on the circuit will be held.

George Bock and Si Ullman of Lafayette, Mr. Butch and Miss Nora Cloud of Indianapolis and Oren Morgan of Macon, Ga., are already here and are assisting in the preliminary work. Mrs. Jessop's sons, Charles and Joseph of this city, and Ed of the United Shows, Walter Franklin and Ed Volz will also make the tour.

The first route will include Middletown, Muncie, Newcastle, Connersville, Rushville, Shelbyville and Indianapolis. At the close of the Indiana State fair Mrs. Jessop will hurry home, and equipping the lighter outfit, will leave on the southern tour which includes Vincennes, Ind., Louisville, Ky., Sedalia, Mo., state fair, Dallas, Texas, Macon, Ga., Birmingham, Ala., and Memphis, Tenn., centennial.

Mrs. Jessop is seventy-five years of age and the present season makes her thirty-fifth on the road with the confectionery stand. She is known in every state in the union and is accorded a warm welcome wherever she visits.

The Tri Kappas will hold a bread and cake exchange in the Capp Plumbing company office in the Masonic block in Main street tomorrow.

ONE-SIDED GAME WON BY YOCUMS

Methodists Handed Short End of 16 to 1 Score in Sunday School League Game.

NINE RUNS MADE IN FIFTH

Christians Jumped All Over Caldwell in This Frame Scoring Six Runs With Two Down.

| LEAGUE STANDING | | | |
|-----------------|----|----|-------|
| | W. | L. | Pct. |
| Flatrock | 2 | 0 | 1.000 |
| Presbyterians | 2 | 2 | .500 |
| Christians | 2 | 2 | .500 |
| Methodists | 1 | 3 | .250 |

The Christian team in the Sunday School league handed the Methodist bunch of ball tossers the worst defeat handed out in the league yesterday. The score was 16 to 1, and as a result the Methodist team landed in the cellar in the league race and the Christian team went into a tie for second place with the Presbyterian team. For five innings the game was a fair exhibition but in the fifth the balloon went up and when the smoke cleared nine runs had crossed the pan.

The fifth inning was an awful affair and errors, hits and walks all went to make the nine runs. Six of the nine runs were made after two men were out. At the start of this frame the Christians led by a four to one score. The M. E. team scored its only run in the first inning and after this was unable to connect with Rogers' slants with men on base. Thirteen men faced Caldwell in the fatal fifth.

In the first of the third Arthur Trader, catcher for the Methodist team was spiked on the leg just above the knee and was forced to retire from the game. The wound required three stitches. The cut was an inch deep and two inches long. Trader will be out of the game for some time. The Methodist team was decidedly weak in the catching department, fourteen stolen bases being made by the Christians.

Those nine runs in the fifth were made by five hits, one of them a triple, three errors and two bases on balls. Caldwell was not given the best of support or the score would not have been as large. Rogers was pounded for seven hits, but they were scattered. The next game scheduled is between the Presbyterians and the Flatrock team next Wednesday.

IN SQUIRE'S COURT.

Blain Hunt will be tried for assault and battery tonight before Squire Kratzer. The charge against Hunt was preferred by Willard Bennett who alleges that Hunt struck his son Charles.
